CEO Message

Investment immigration is on the rise as a survey shows around 128,000 millionaires will invest in citizenship by investment programs in 2024 alone. Second citizenship helps in business expansion and the growth of personal wealth and essentially is a Plan B for many to escape from uncertain conditions. I understand the situation of Pakistani businessmen who occasionally have to fly to attend business meetings, trade shows, events and exhibitions. Embassy appointments and visa decisions take time, and still, they are not sure whether they can fly or not. As CEO of Saad Ahsan Residency and Citizenship, I assure you that I will give all my support to those seeking citizenship in a country that can help them grow their business.
